

WELCOME TALENT
(Originally published March 1966)

Under the heading of Consultant Corner, the *Bulletin* extends a very warm welcome to the Medical Center's Chaplain-in-residence, Norman Lovein. Having admired the quiet and comfortable style of Lovein columns appearing in the local newspaper during the past year, we were pleased when he agreed to become a contributor. We hope he will remain as a regular monthly fixture, if not under the consultant heading, then any other of his own choosing.
